The Title VI Coordinator or Liaison will attend the annual training and subsequently disseminate the benefit of the training to pertinent NKADD staff and program office heads. Some NKADD staff will further their education by attending the Title VI trainings offered by the Transportation Cabinet as well as other departments of government.

The external component consists of training the NKADD’s sub-recipients and beneficiaries (if any). As a part of the Sub-recipient Monitoring Program the Title VI Coordinator or Liaison will conduct reviews and the sub-recipients (if any) will be provided with explanatory materials and technical assistance as necessary to ensure their knowledge of, and compliance with Title VI requirements. The City of Dry Ridge will be treated as a sub-recipient for training purposes.

Article VII. Complaint Procedures

Synopsis
Any person who believes he or she has been discriminated against on the basis of race, color or national origin by the Northern Kentucky Area Development District (NKADD)/City of Dry of Ridge may file a Title VI complaint by completing and submitting the agency’s Title VI Complaint Form found in Appendix G. The NKADD investigates complaints received no more than 180 days after the alleged incident. If the complaint is initially received by the City of Dry Ridge, the complaint will be forwarded to the Title VI Coordinator at the NKADD within 7 business days of the original receipt. The NKADD will process complaints that are complete.

Once the complaint is received, the NKADD will review it to determine if our office has jurisdiction. The complainant will receive an acknowledgement letter informing him or her whether the complaint will be investigated by our office.

- The NKADD has ninety (90) calendar days to investigate the complaint. If more information is needed to resolve the case, the NKADD may contact the complainant.
- The complainant then has ten (10) business days from the date of the letter to send requested information to the investigator assigned to the case.
- If the investigator is not contacted by the complainant or does not receive the additional information within ten (10) business days, the NKADD can administratively close the case. A case can also be administratively closed if the complainant no longer wishes to pursue their case.
- After the investigator reviews the complaint, he or she will issue one of two letters to the complainant:
  - A closure letter: a closure letter summarizes the allegations and states that there was not a Title VI violation and that the case will be closed; or
  - A letter of finding (LOF): a LOF summarizes the allegations and the interviews regarding the alleged incident, and explains whether any disciplinary action, additional training of the staff member or other action will occur. If the complainant wishes to appeal the decision, he or she has seven (7) business days to do so from the time he or she receives the closure letter or the LOF.

Complaint Form
A copy of the complaint form is provided in Appendix G, on NKADD’s website: http://www.nkadd.org/local-government/transportation, and on the City of Dry Ridge website https://cdrky.org/.

Record Retention and Reporting Policy
The NKADD’s Title VI Plan will be submitted to all applicable State and Federal Agencies as required. Compliance records and all Title VI related documents will be retained for a minimum of three (3) years and reported to the primary recipient annually.
**Contractors and Subcontractors**

The NKADD (the Sponsor) is responsible for ensuring that contractors are in compliance with Title VI requirements. Contractors may not discriminate in the selection and retention of any subcontractors. NKADD contractors and subcontractors may not discriminate in their employment practices in connection with federally assisted projects. Contractors and subcontractors are not required to prepare or submit a Title VI Plan. Appropriate staff members will routinely confirm that guidelines provided to consultants, contractors, and sub-recipients include Title VI language, provisions and related requirements, where applicable.

1. **Compliance with Regulations:** The Contractor shall comply with the Regulations relative to nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation (hereinafter, “DOT”) Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.

The contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of 49 CFR Part 21.

3. **Solicitations for Subcontracts, Including Procurements of Materials and Equipment:** In all solicitations made by the Contractor, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials or leases of equipment; each potential subcontractor or supplier shall be notified by the Contractor of the subcontractor’s obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.

4. **Information and Reports:** The Contractor shall provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Sponsor, the Kentucky Transportation Cabinet or the Federal Highway Administration to be pertinent to ascertain compliance with such Acts, Regulations, and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to the Sponsor, the Kentucky Transportation Cabinet or the Federal Highway Administration, as appropriate and will set forth what efforts it has made to obtain the information.
5. **Sanctions for Noncompliance**: In the event of the Contractor’s noncompliance with the nondiscrimination provisions of this contract, the NKADD shall impose contract sanctions as it, the Kentucky Transportation Cabinet, or the Federal Highway Administration may determine appropriate, including, but not limited to:

   a. withholding payments to the Contractor under the contract until the contractor complies, and/or

   b. cancellation, termination, or suspension of the contract, in whole or in part.

6. **Incorporation of Provisions**: The Contractor shall include the provisions of paragraphs one (1) through six (6) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request the Sponsor to enter into any litigation to protect the interests of the Sponsor. In addition, the contractor may request the United States enter into the litigation to protect the interests of the United States.

**Special Emphasis Program Areas**

At this time, the NKADD has not identified any Special Emphasis Program Areas. A program area is designated as a “special emphasis area” if during the previous year’s review process the program area shows deficiencies in how it complies with Title VI requirements.

**Sub-Recipient Review Procedures**

The NKADD Title VI Coordinator and Title VI Liaison shall ensure the sub-recipients (if any) are implementing programs that comply with Title VI of the Civil Rights Act of 1964 and related civil rights laws and regulations by requiring that the annual training is conducted, and follow-up materials are disseminated and reviewed. Additionally, the Title VI Coordinator or Liaison will collaborate with sub-recipient to conduct periodic pre-grant and post-grant reviews to ensure adherence to Title VI requirements. Reviews will use a combination of desk and onsite audits. Appropriate staff members will routinely confirm that guidelines provided to consultants, contractors, and sub-recipients include Title VI language provisions and related requirements, where applicable.

The Northern Kentucky Area Development District does not have any sub-recipients during this plan year.
Investigations, Complaints and Lawsuits

Article VIII. Public Participation Plan

Current Outreach Efforts
The NKADD is required to submit a summary of public outreach efforts made over the last three (3) years. The following is a list and short description of NKADD’s recent, current, and planned outreach activities concerning transit services.

The NKADD will discuss and/or distribute Title VI information using mass media including, but not limited to the following:

- Policy statements
- Inclusion of Title VI language in contracts
- New employee orientation
- Federal EEO posters
- LCADD website: http://lcadd.org
- Standard procedures manual
- Significant publications, e.g., newspapers, brochures, and written literature
- Mailings
- Meetings open to the public
- Events

Further, notices informing the public and all employees that the NKADD complies with Title VI of the Civil Rights Act of 1964 will be displayed in a prominent place.

The NKADD’s complete Public Participation Plan is attached as Appendix H of this document.

Data Collection/Reporting/Analysis
The Statistical data collected on race, color, national origin, sex, age, disability, and LEP participants in and beneficiaries of the programs in the NKADD region, (i.e. affected populations and participants) will be gathered, analyzed, and maintained to determine the transportation investment benefits and burdens to the population, including minority and low-income populations. Data gathering procedures will be reviewed regularly to ensure sufficiency of the data in meeting the requirements of Title VI program administration. Data will be collected from the U.S. Census Bureau’s American Community Survey (ACS) which is an ongoing survey that provides important community-based statistics on an annual basis. Analysis of the data collected by the program emphasis areas may include:
• The race, color, national origin, sex, age, disability, income and LEP of the population eligible to be served;
• Socioeconomic Assessment to evaluate project’s potential impacts to the human environment;
• Persons to include in the decision-making process;
• Percent of benefits allocated to persons below the poverty line vs. persons above the poverty line;
• Distribution of benefits (dollars, facilities, systems, projects) to groups and communities;
• Projected population increases versus planned facilities and types of facilities;
• Language needs assessment;
• Transportation need of all persons within boundaries of plans or projects;
• Strategies to address impacts;
• The manner in which services are or will be provided and the related data necessary for determining whether any persons are or will be denied such services on the basis of prohibited discrimination;
• Strategies to disseminate information; and
• The present or proposed membership, by race, color, national origin, sex, disability and age, in any planning or advisory body which if an integral part of the problem.

**Environmental Justice (EJ)**

Executive Order 12898 (E.O. 12898) was issues to focus federal attention on the environmental and human health conditions in minority and low-income communities to promote non-discrimination in federal programs substantially affecting human health and the environment and to provide minority and low-income communities access to public information on and an opportunity for public participation in matters relating to human health or the environment.

NKADD will utilize the U.S. Census Bureau data, the American Community Survey data, and the following checklist to identify targeted populations:

• Make a list of potential demographic groups to consider for the region or start with the required EJ populations defined by the Executive Order and supportive guidance;
• Consider groups that are underrepresented in typical public involvement and transportation decision making processes, have limited access to the full benefits of the transportation system or have encountered disproportionate impacts from past transportation decisions;
• Decide on the level of detail required for identifying groups spatially and identifying data sources to use to conduct a spatial demographic profile; and

• Engage leaders and representatives of demographic groups to help identify target populations, spatially and non-spatially.
Article IX. **Language Assistance Plan**

The Language Assistance Plan (LAP) has been prepared to address the Northern Kentucky Area Development District’s responsibilities as they relate to the needs of individuals with Limited English Proficiency (LEP). Individuals who have a limited ability to read, write, speak or understand English are defined LEP. According to data from the U.S. Census Bureau, there are 64,623 residents in the NKADD region who are over the age of 5. Of those residents, 1.32% describe themselves as speaking English less than “very well”. NKADD is federally mandated (E.O. 13166) to take responsible steps to ensure meaningful access to the benefits, services, information and other important portions of its programs and activities for individuals who are LEP. NKADD has utilizes the U.S. Department of Transportation (DOT) LEP Guidance Handbook and performed a four factor analysis to develop its LAP. **The LAP is included in this Title VI Plan as Appendix I.**
Article X. **Equity Analysis**

Title 49 CFR, Appendix C, Section (3)(iv) requires that “the location of projects requiring land acquisition and the displacement of persons from their residences and business may not be determined on the basis of race, color, or national origin.” For purposes of this requirement, “facilities” does not include bus shelters, as they are considered transit amenities. It also does not include transit stations, power substations, or any other project evaluated by the National Environmental Policy Act (NEPA) process. Facilities included in the provision include, but are not limited to, storage facilities, maintenance facilities, operations centers, etc. In order to comply with the regulations, the Northern Kentucky Area Development District (NKADD) will ensure the following:

1. The NKADD will complete a Title VI equity analysis for any facility during the planning stage with regard to where a project is located or sited to ensure the location is selected without regard to race, color, or national origin. The NKADD will engage in outreach to persons potentially impacted by the siting of the facility. The Title VI equity analysis must compare the equity impacts of various siting alternatives, and the analysis must occur before the selection of the preferred site.

2. When evaluating locations of facilities, the NKADD will give attention to other facilities with similar impacts in the area to determine if any cumulative adverse impacts might result. Analysis should be done at the Census tract or block group level where appropriate to ensure that proper perspective is given to localized impacts.

3. If the NKADD determines that the location of the project will result in a disparate impact on the basis of race, color, or national origin, the NKADD may only locate the project in that location if there is a substantial legitimate justification for locating the project there, and where there are no alternative locations that would have a less disparate impact on the basis of race, color, or national origin. The NKADD must demonstrate and document how both tests are met. The NKADD will consider and analyze alternatives to determine whether those alternatives would have less of a disparate impact on the basis of race, color, or national origin, and then implement the least discriminatory alternative.

The NKADD has not recently constructed any facilities nor does it currently have any facilities in the planning stage. Therefore, the NKADD does not have any Title VI Equity Analysis reports to submit with this Plan. Therefore, the NKADD does not have any Title VI Equity Analysis reports to submit with this Plan. The NKADD will utilize the demographic maps included in the Transit Public Participation Plan found in Appendix H, for future Title VI analysis.
Article XI. **Review of STA Directives**

*Procedures, Manuals, and Directives Applicable to the Federal Highway Administration (FHWA) programs.*

The NKADD’s Title VI Implementation Plan is designed to comply with the statues and requirements under the law and as directed by FHWA to accomplish the goals of the Title VI Act of 1964.

APPENDIX H: Public Participation Plan

Northern Kentucky Area Development District
Public Participation Plan – Transit

FY 2019

Introduction
Kentucky maintains a statewide transit planning process. In 1995 Kentucky expanded and formalized a public involvement process for the statewide transportation planning process in response to the directives of the Intermodal Transportation Efficiency Act of 1991 (ISTEA). ISTEA and its successor, The Transportation Equity Act for the 21st Century (TEA-21) enacted in 1998, set the policy directions for more comprehensive public participation in federal and state transportation decision-making. The Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was passed in 2005. SAFETEA-LU addressed challenges such as improving safety and reducing traffic congestion, improving efficiency in freight movement, increasing intermodal connectivity, and protecting the environment. Current federal funding was established by the Moving Ahead for Progress in the 21st Century Act (MAP-21), which “creates a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991” (FHWA.dot.gov). These Congressional acts authorize all on-going federal-aid transportation programs.

The KYTC administers federal funds for transit services throughout the state. In our service area, those funds are primarily the Transit Delivery Grants 5310 and 5311. The 5310 Program services elderly individuals and individuals with disabilities, including veterans. The 5311 Program subsidizes rural public transit operations.

The Ohio-Kentucky-Indiana Regional Council of Governments (OKI) is a council of local governments, business organizations and community groups committed to developing collaborative strategies to improve the quality of life and the economic vitality of the region. Formed in 1964, OKI has spent 50 years cultivating partnerships and alliances that range from the federal government to local councils. Its 118 members represent governmental, social and civic groups from nearly 200 communities in the eight-county, three-state region. OKI works collaboratively with stakeholders to solve interstate dilemmas, create far-reaching development plans, break through political bureaucracy, provide services to the public and advocate for federal funding. OKI has final authority over all federal dollars spent on surface transportation in their region.
The NKADD primarily conducts activities in support of transit planning for the rural areas of the NKADD and mobility management services for the entire NKADD region. The City of Dry Ridge was identified by KYTC as an entity that had received FTA funding; however, the specific program has not been identified.

**Purpose of Public Participation Plan**

The purpose of the Public Participation Plan (PPP) is to describe actions the NKADD shall take to provide opportunities for the public to be involved in the regional transit planning process. It serves as a guide for the NKADD to follow in planning public involvement opportunities. True public participation is central to good decision making. Without meaningful public participation, there is a risk of making less than optimal decisions. With it, there can be a lasting contribution to the regional well-being of our neighborhoods, towns, cities, and counties. The best policy decisions by government are made in context of public participation.

The goal of the public participation plan will be to broaden the public input process in an effort to reach more sectors of the public. Public awareness is a very important element in gaining public input. Emphasizing the importance of communicating and coordinating with other agencies and interests is also vital to the public involvement process. Ultimately, public participation enhances the ability to implement transportation solutions that improve safety and efficiency, protect natural and human environments, and contribute to community vitality.

In order to gain cooperation in implementing transportation improvements, government, industry, commerce and citizens need to understand what the problems are, what improvements are necessary, what the effects will be and when each element of the program will be ready for public use and/or input. Opening transit planning to the public through meetings, hearings, notices and surveys are ways to inform the public of such issues. To be effective, it is essential that government agencies understand a given community’s values and it is equally important for the community to understand the tradeoffs and constraints associated with project planning. This mutual understanding can only be achieved through early, frequent, and continued communication. When the public is engaged in the process, their insight helps assure projects suit community needs. The true test of a successful public participation plan is the level of public awareness and feedback. Too often, public participation does not occur until after the community-at-large becomes aware of an unpopular decision.

The entire planning process and the identification of transportation needs throughout the region, utilizes input from the city mayors, county judges, and other interested parties that could include:

- Citizens,
- affected public agencies,
- representatives of public transit,
- private providers of transit,
• representatives from elderly populations, minority populations, low-income populations and those with disabilities,
• representatives of veteran services, and
• other interested parties.

Public Participation

The NKADD will provide public participation opportunities to allow all persons to be involved in transit planning and provide an avenue for the public voice to be heard by the key decision makers. This action will provide opportunity for all persons and interest groups to participate in the identification, evaluation, and recommendation of prioritized transit needs. This process will involve public meetings with specific interest groups to discuss transit issues, as deemed appropriate by the NKADD. The NKADD will make every effort to include the transit disadvantaged and under-served populations (i.e. elderly, minority, low-income and disabled populations, limited English proficiency populations, as well as all other effected populations in the region) on committees or in public meetings held for the purpose of soliciting input for transit plans, issues and/or projects.

The entire process is developed with a spirit of cooperation by working with the KYTC, local city and county governmental agencies and other interested parties located throughout the region.

Approach

The NKADD PPP will use a broad approach because there is no overwhelming population center for the traditionally underserved, and the size of these populations is relatively small. Third party group members will be identified across the five-county area to aid in the outreach efforts of the traditionally underserved. The widespread use of newspapers, radio, and television can be used to potentially reach the underserved.

Meetings will be open to the public. This action will be made available to allow the public ample opportunities to provide information, concerns, and issues for consideration. Any comments received will be documented by the NKADD.

The NKADD may also hold local or regional public information/input meetings to provide additional opportunities for public comments related to transit issues and the transit planning process.

NKADD Public Involvement activities may include:

• Local or regional public/information meetings
• Conducting local transit meetings with local officials and interested community leaders
• Using e-mail lists to provide transit information materials to interested persons and agencies
• Using advisory committees/groups to include a more diverse group of individuals and representation of the region. This extension group allows for the public participation/input process to expand beyond the regular committee members
• Use the www.nkadd.org website to share and make finding information easier for the community
• Utilizing local newspapers to help reach more sectors of the public and provide education on the transit planning process with special emphasis during the prioritization process
• Utilize existing services/programs at the NKADD to distribute information (i.e. Child Care, Housing, Aging) this could provide more opportunities to reach low-income, minority, and elderly populations with special emphasis during the prioritization process
• Use surveys in mail-outs, e-mails, etc. to gain public input with special emphasis during the prioritization process

List of Resources
In order to expand participation opportunities, the NKADD has initiated a list of resources for general and targeted outreach methods for the region. All of the items listed may not be used at the same time or may not be used at all, but could be used in the future by the NKADD to include those persons who have been traditionally underserved by the existing transit system and for the general participation procedures. The ADD maintains a detailed listing of contact information and may be obtained by contacting the ADD.

1. Public Meetings: The NKADD will hold local or regional public information/input meetings to provide opportunities for public comments related to transit issues and the transit planning process.
2. NKADD Website: The NKADD Website is located at www.nkadd.org. Further commitments to providing information will continue in an effort to make documents and forms electronically accessible formats for easy viewing.
3. Newspapers: Information can be sent to the local newspapers in the region. While none are identified as targeting specific traditionally underserved audiences, all have the potential to have traditionally underserved subscribers. Information can be distributed to the newspapers relating to media releases with announcements of meeting dates and locations, announcements of documents available for public review and comment, and information about the planning process.
**Socioeconomic Profiles**

The NKADD will develop a plan to encourage participation by minority and low-income populations in the public participation process and include subject populations in the transit planning process.

Title VI was enacted as part of the Civil Rights Act of 1964. It prohibits discrimination on the basis of race, color, and national origin in programs and activities receiving federal financial assistance. Public Outreach activities will include efforts to involve the traditionally underserved groups (i.e. minorities, elderly, low-income persons) in the transit planning process. These potentially underrepresented populations may also be youth of the community, persons with disabilities, senior citizens, veterans, and others who may be too busy to attend public meetings. These efforts may include, but not limited to the following:

- Identifying areas in the region with concentrations of minority, elderly, and low-income populations
- Including organizations that deal directly with minority groups on the Stakeholder lists
- Posting notification of meetings, public hearings, and open houses in county health departments, senior centers, local community centers, post offices and churches
- Publishing notification of meetings, public hearings, and open houses in Spanish

**Demographic Information**

The Northern Kentucky Area Development District is composed of five rural counties: Carroll, Gallatin, Grant, Owen and Pendleton. The below maps provide information on the following potential underserved populations in the NKADD region:

This Public Participation Plan will be updated annually to ensure the potentially underserved populations are being accurately represented in the creation of the Northern Kentucky Area Development District’s Transit Coordinated Plan and ensure their inclusion in the planning process. As the size of these populations increase the NKADD will amend their outreach efforts to reflect the fluctuations and ensure inclusion from all members of the community.
APPENDIX I: Language Assistance Plan

Northern Kentucky Area Development District
Language Assistance Plan – Transit
FY 2019

Introduction
The Northern Kentucky Area Development (NKADD) coordinates a transit system plan within Carroll, Gallatin, Grant, Owen and Pendleton Counties and a regional mobility management program. The Language Assistance Plan (LAP) has been prepared to address NKADD’s responsibilities as they relate to the needs of individuals with Limited English Proficiency (LEP). Individuals, who have a limited ability to read, write, speak or understand English are LEP. In the NKADD rural service area there are 855 residents or 1.32% who describe themselves as not able to communicate in English “very well” (Source: US Census) and in the urban/suburban service area there are 6,771 residents or 1.89% who describe themselves as not able to communicate in English “very well.” The NKADD is federally mandated (Executive Order 13166) to take responsible steps to ensure meaningful access to the benefits, services, information and other important portions of its programs and activities for individuals who are LEP. The NKADD has utilized the U.S. Department of Transportation (USDOT) LEP Guidance Handbook and performed a four factor analysis to develop its LAP.

The U.S. Department of Transportation Handbook, titled “Implementing the Department of Transportation’s Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient (LEP) Persons: A Handbook for Public Transportation Providers, (April 13, 2007)“ (hereinafter “Handbook”), states that Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d et seq., and its implementing regulations provide that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity that receives Federal financial assistance (Handbook, page 5). The Handbook further adds that Title VI prohibits conduct that has a disproportionate effect on LEP persons because such conduct constitutes national origin discrimination (Handbook, page 5).

Executive Order 13166 of August 16, 2000 states that recipients of Federal financial assistance must take reasonable steps to ensure meaningful access to their programs and activities by LEP persons (Handbook, page 6). Additionally, recipients should use the DOT LEP Guidance to determine how best to comply with statutory and regulatory obligations to provide meaningful access to the benefits, services, information and other important portions of their programs and activities for individuals who are LEP (Handbook, page 6). These provisions are included in FTA Circular 4702.1B in Paragraph 9 of Chapter III (pages III-6 to III-9).

For many LEP individuals, public transit is the principal transportation mode available. It is important for the NKADD to be able to communicate effectively with all of its riders. When NKADD is able to communicate effectively with all of its riders, the service provided is safer, more reliable, convenient, and accessible for all within its service area. The NKADD is committed to taking reasonable steps to ensure meaningful access for LEP individuals to this agency’s services in accordance with Title VI.
This plan will demonstrate the efforts that NKADD undertakes to make its service accessible to all persons without regard to their ability to communicate in English. The plan addresses how services will be provided through general guidelines and procedures including the following:

- Identification: Identifying LEP populations in service areas
- Notification: Providing notice to LEP individuals about their right to language services
- Interpretation: Offering timely interpretation to LEP individuals upon request
- Translation: Providing timely translation of important documents
- Staffing: Identifying NKADD staff to assist LEP customers
- Training: Providing training on LAP to responsible employees.

Four Factor Analysis

The analysis provided in this report has been developed to identify LEP populations that may use NKADD services and identify needs for language assistance. This analysis is based on the “Four Factor Analysis” presented in the Implementing the Department of Transportation’s Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient (LEP) Persons, dated April 13, 2007, which considers the following factors:

A. Factor 1: The number and proportion of LEP persons serviced or encountered in the eligible service population

For determining the LEP population, the NKADD utilized the U.S. Census Bureau Language Use data (ACS-DP02) for Language Spoken at Home and English-Speaking Ability by County.

Rural Counties: Carroll, Gallatin, Grant, Owen and Pendleton

The total Combined (2017) Population over 5 years of age in the rural counties of Carroll, Gallatin, Grant, Owen and Pendleton is 64,907. The below table outlines the language spoken at home for the service area population according to the U.S. Census Bureau.

B. Factor 2: The frequency with which LEP persons come in contact with NKADD programs, activities or services.

The NKADD supports transit planning services in our five rural counties: Carroll, Gallatin, Grant, Owen and Pendleton, but does not provide direct transit assistance to individuals. Direct providers are county governments or nonprofit agencies. Therefore, these are the only areas in which LEP persons might come in contact with NKADD supported transit services or programs. However, during periods of public comment, some citizen participation may be directed to the NKADD.

The NKADD supports mobility management services to the entire NKADD region. The NKADD serves as a call center for those with inquiries relating to public transportation options. The Mobility Manager matches clients with suitable transit providers to meet their needs. Further, the mobility manager schedules transit trips for clients with a select group of providers in the region.

C. Factor 3: The nature and importance of programs, activities or services provided by NKADD to the LEP population.

Transit services are very important to the populations in our rural areas. The NKADD supports transit planning services in our five rural counties: Carroll, Gallatin, Grant, Owen and Pendleton, but does not provide direct transit assistance to individuals. Direct providers are county governments or nonprofit agencies. The NKADD supports mobility management services to the entire NKADD region. The NKADD serves as a call center for those with inquiries relating to public transportation options. The Mobility Manager matches clients with suitable transit providers to meet their needs. Further, the mobility manager schedules transit trips for clients with a select group of providers in the region. Therefore, these are the only areas in which LEP persons might come in contact with NKADD supported transit services or programs. However, during periods of public comment, some citizen participation may be directed to the NKADD.

D. Factor 4: The resources available to NKADD and overall costs to provide LEP assistance

Given the resources currently available to the NKADD, the LAP measures appear reasonable. LAP measures include written translation if requested. If there is a consistent need for translations, by LEP populations, the NKADD will consider additional appropriate measures to serve the language access needs of those persons.

Language Implementation Plan

A. Element 1: Identifying LEP Individuals Who Need Language Assistance

For determining the LEP population, the NKADD utilized the U.S. Census Bureau Language Use data (ACS-DP02) for Language Spoken at Home and English-Speaking Ability by County. NKADD may identify language assistance need for an LEP group by:

1. Working with public and private agencies that assist LEP persons. Interview staff to solicit information about the locations and needs of LEP persons they serve.
2. Continue to compile demographic information from the U.S. Census and other sources to identify concentration of LEP persons, and the type of language barriers that exist.

B. Element 2: Language Assistance Measures
The NKADD supports transit planning services in our five rural counties: Carroll, Gallatin, Grant, Owen and Pendleton, but does not provide direct transit assistance to individuals. Direct providers are county governments or nonprofit agencies. The NKADD supports mobility management services to the entire NKADD region. The NKADD serves as a call center for those with inquiries relating to public transportation options. The Mobility Manager matches clients with suitable transit providers to meet their needs. Further, the mobility manager schedules transit trips for clients with a select group of providers in the region. Therefore, these are the only areas in which LEP persons might come in contact with NKADD supported transit services or programs. However, during periods of public comment, some citizen participation may be directed to the NKADD and the NKADD will provide written translations when requested.

C. Element 3: Training Staff
Pertinent staff participated in and will continue to participate in future Title VI trainings provided by KYTC, the FTA and other organizations.

D. Element 4: Providing Notice to LEP Persons
When an LEP language group meets the required limits, the NKADD will provide written notice in the primary language of the LEP language group of the right to receive either oral or written interpretation, at the discretion of the NKADD, of those written materials, free of cost. Citizens, public agencies and other interested parties will have reasonable and timely access to information and records relating to the LAP. All public records will be made accessible to interested individuals and groups pursuant to Open Records Statute KRS 61.870-884.

E. Element 5: Monitoring and Updating the Plan
All agencies receiving federal transit funds administered through the NKADD program will report as requested by KYTC on services provided to LEP persons. Agencies will review their respective plans each year to evaluate their effectiveness and to make any needed changes. The NKADD will assist agencies in finding appropriate translation resources, and disseminate translated notices, brochures, posters and other documents.

The NKADD will monitor the delivery of any required language assistance on an ongoing basis. It will review the LAP, evaluate the effectiveness of its implementation, and update
the LAP, on an annual basis, in order to ensure continued responsiveness to community needs.

The LAP evaluation will consist of:

i. Revision of the LAP, as necessary, by monitoring changes in demographics and services provided, updating available resources and tools, modifying methods of implementation and addressing any issues of concerns.

ii. Analysis of language assistance usage, including the amount of language service requests, surveying the languages most frequently encountered, identifying the primary modes of communication, and costs associated with services rendered.

Safe Harbor Provision

DOT has adopted the Department of Justice’s Safe Harbor Provision, which outlines circumstances that can provide a “safe harbor” for recipients regarding translation of written materials for LEP population. The Safe Harbor Provision stipulates that, if a recipient provides written translation of vital documents for each eligible LEP language group that constitutes five percent (5%) or 1,000 persons, whichever is less, of the total population of persons eligible to be served or likely to be affected or encountered, then such action will be considered strong evidence of compliance with the recipient’s written translation obligations. Translation of non-vital documents, if needed, can be provided orally. If there are fewer than 50 persons in a language group that reaches the five percent (5%) trigger, the recipient is not required to translate vital written materials, but should provide written notice in the primary language of the LEP language group of the right to receive competent oral interpretation of those written materials, free of cost.

The Northern Kentucky Area Development District (NKADD) service area does not have LEP populations which qualify for the Safe Harbor Provision. As shown on page 52, the NKADD does not have LEP groups which speak English less than “very well” which exceed either 5.0% or 1,000 persons.
