### **Independent Auditors' Report**

The Board of Directors Northern Kentucky Area Development District Florence, Kentucky

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Northern Kentucky Area Development District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Northern Kentucky Area Development District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Northern Kentucky Area Development District as of June 30, 2018 and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Change in Accounting Principle**

As described in Note 11 to the financial statements, in 2018, the District adopted new accounting guidance, GASB statement No. 75, Accounting and Financial *Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, and pension schedules on pages 1-5 and 28-35 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Northern Kentucky Area Development District's basic financial statements. The statement of operations by grant and the statement of allocated costs claimed are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The statement of operations by grant, the statement of allocated costs claimed and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 14, 2019, on our consideration of Northern Kentucky Area Development District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Northern Kentucky Area Development District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Northern Kentucky Area Development District's internal control over financial reporting and compliance.

Barnes, Dennig E, Co., Std.

Our discussion and analysis of Northern Kentucky Area Development District's (NKADD) financial performance provides an overview of its financial activities for the fiscal year ended June 30, 2018. Please read it in conjunction with the NKADD's financial statements, which begin on page 6.

### **FINANCIAL HIGHLIGHTS**

- At the close of the fiscal year, the NKADD's net position was a negative \$(4,271,584), a decrease of \$713,518 or 20.06% over FY 2017 restated negative net position.
- In the governmental funds, total revenues during the fiscal year increased by \$484,601 and total expenditures increased by \$810,702.
- At the close of the fiscal year, the NKADD's governmental fund balance was \$3,121,068 an increase of \$1,723 from June 30, 2017.

### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 6 and 7) provide information about the activities of the NKADD as a whole and present a longer-term view of the NKADD's finances. Fund financial statements start on page 8. For governmental activities, these statements tell how the services were financed in the short term as well as what remains for future spending. Fund financial statements also report the NKADD's operations in more detail than the government-wide statements by providing information about the NKADD's most significant funds. The remaining statements provide detail financial information for the benefit of those outside of the government.

### Reporting the NKADD as a Whole

Our analysis of the NKADD financial statements as a whole begins on page 6. One of the most important questions asked about the NKADD's finances is, "Is the NKADD as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the NKADD as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the NKADD's net position and changes in them. You can think of the NKADD's net position—the difference between assets and liabilities—as one way to measure the NKADD's financial health, or financial position. Over time, increases or decreases in the NKADD's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the NKADD's revenue base and the condition of the NKADD's facilities, to assess the overall health of the NKADD.

In the Statement of Net Position and the Statement of Activities, we show the NKADD's one activity:

• Governmental activities—All of the NKADD's basic services are reported here, grant administration and general administration. State, local, and federal grants finance most of these activities.

### Reporting the NKADD's Most Significant Funds

Our analysis of the NKADD's major funds and the fund financial statements begin on page 8 and provide detailed information about the most significant funds—not the NKADD as a whole. All grant administration is considered in one major fund. However, the NKADD accounts for grants by separate work elements to help it control and manage money for particular purposes and to show that it is meeting legal responsibilities for using certain grants, and other money.

- Governmental funds Most of the NKADD's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the NKADD's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the NKADD's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliations on pages 9 and 11.
- Special revenue funds reports the activities of the revolving loan fund and Kentucky Housing Corporation (KHC) Economic Development Administration (EDA) loan program. These activities are reported in a separate column on the balance sheet on page 8 and on the statement of revenues, expenditures and changes of fund balances on page 10. We separate these activities from the NKADD's other activities because the NKADD cannot use these assets to finance its operations. The NKADD is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

### FINANCIAL ANALYSIS OF THE NKADD AS A WHOLE

The total net position serves over time as an indicator of an organization's financial position. In the case of the NKADD, liabilities and deferred inflows exceeded assets and deferred outflows by \$4,271,584. The restated beginning net position was a negative \$(3,558,066). The unrestricted net position as of June 30, 2018 was a negative \$(5,125,893).

Total governmental funds revenue for the period ending June 30, 2018 was \$19,040,358. For the previous fiscal year, the total revenue was \$18,555,757. This results in a 2.61% increase in revenues. The net increase in revenues for FY 2018 is due to slight changes across multiple programs with higher levels of federal and local funding.

### **General Fund Budgetary Highlights**

In Fiscal Year 2018, the NKADD had an initial total projected budget of \$17,838,544 in revenues and \$17,784,064 in expenditures and net other financing uses, with net change in fund balance of \$54,480. Of these dollars \$12,000,000 were projected pass-thru. During Fiscal Year 2018, the budget was amended to increase revenues to \$18,354,518 and increase expenditures and net other financing uses to \$19,150,324. The actual revenues on the budgetary basis for Fiscal Year 2018 were \$18,175,857 and \$18,365,841 in actual expenditures and net other financing uses, compared to Fiscal Year 2017 revenues of \$17,834,604 and expenditures and net other financing uses of \$17,686,378.

### **CAPITAL ASSETS**

The capital assets of the NKADD are its office building, the land it sits upon, computer equipment, furnishings, and computer software. The land has a historical cost of \$226,975 for both June 30, 2018 and June 30, 2017. This represents the only capital asset not depreciated. The office building has a historical cost of \$2,927,591 for both June 30, 2018 and June 30, 2017. The accumulated depreciation for the office building at June 30, 2018 was \$875,667 and at June 30, 2017 was \$791,199. The increase of \$84,468 was depreciation expense for fiscal year 2018. Computer equipment has a historical cost of \$516,472 for June 30, 2018 and \$545,498 for June 30, 2017. During the fiscal year there were additions to computer equipment for \$103,544 and disposals of \$132,570. Accumulated depreciation for computer equipment was \$389,804 at June 30, 2018 and \$469,328 at June 30, 2017. Accumulated depreciation for computer equipment increased \$51,235 for depreciation, and decreased \$130,759 for disposals. Furniture and fixtures have a historical cost of \$282,152 for June 30, 2018 and \$292,008 for June 30, 2017. During the fiscal year there were disposals to furniture and fixtures of \$9,856. The accumulated depreciation for furniture and fixtures was \$235,966 at June 30, 2018 and \$232,101 at June 30, 2017. Accumulated depreciation for furniture and fixtures increased \$13,721 for depreciation, and decreased \$9,856 for disposals. Computer software has a historical cost of \$76,888 for June 30, 2018 and \$42,173 for June 30, 2017. During the fiscal year there were additions to computer software for \$34,715. The accumulated depreciation for computer software was \$35,761 at June 30, 2018 and \$24,600 at June 30, 2017. Accumulated depreciation for computer software increased \$11.161 for depreciation.

### **DEBT ADMINISTRATION**

Of the capital items, the land and office building are financed by long-term debt. This debt represents the only capital assets financed debt of the NKADD. In December 2013, the NKADD's remaining U.S. Department of Agriculture (USDA) "First Mortgage Revenue Bonds," Series 2001 were paid in full with funds provided by the City of Florence under a capital lease arrangement. The lease/financing arrangement with the City of Florence has an average interest rate of 3.5%, payable semi-annually. The unpaid balance was \$1,960,000 at June 30, 2018. The debt service total principal and interest for Fiscal Year 2019 will be \$186,575.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The NKADD budget and financial stability is closely connected to receipt of federal and state public dollars. For Fiscal Year 2019, budgeted revenues are \$18,215,569 and expenditures are \$17,535,124. The difference between Fiscal Year 2019 budgeted revenues and expenditures is \$680,445.

Retirement costs continue to be a long-term financial issue for NKADD. The Fiscal Year 2019 employer contribution rate for NKADD in the County Employees Retirement System (CERS) is 21.48%. In Fiscal Year 2020, the CERS rate will increase; however, the exact rate is pending the outcome of the pension reform.

In 2019, the Kentucky General Assembly will conduct a regular budget session. The budget situation in Kentucky continues to be dire, and many programs were impacted by the Governor's Budget Reduction Order, (BRO). Some programs were impacted more than others, and of particular negative impact, was the 100% portion of the BRO that the Department for Local Government passed on to the ADD's in the eleventh month of the fiscal year. This could result in a 34% cut, amounting to \$68,853, to the NKADD. These reductions significantly impacted the Community and Economic Development Division. The Consumer Directed Options reimbursement rates have also changed, which have negatively impacted the financial standing of that program as well. NKADD is making adjustments in an attempt to alleviate these cuts and rate changes, and thus anticipates being better positioned for FY'19. These include not only costs reductions, but also diversification of funding and leveraging of additional funding mechanisms.

The NKADD strives to position itself for emergencies. The unassigned fund balance in the Governmental Fund Statements as of June 30, 2018 was \$2,675,386 compared to \$2,803,308 at the end of Fiscal Year 2017. While still low for an organization the size of NKADD, it is critical to operations to maintain an adequate level. With the implementation of Governmental Accounting Standards Board Statement Nos. 68 and 75, the NKADD was required to reflect in the Government-wide Financial Statements its proportionate share of the unfunded liability of the Kentucky Retirement System's County Employees Retirement System (CERS), a cost sharing multiple employer plan, in which NKADD is a participant. As a result, the unrestricted net position as of June 30, 2018 was a negative \$(5,125,893) compared to a restated negative \$(4,129,893) at the end of Fiscal Year 2017.

### NORTHERN KENTUCKY AREA DEVELOPMENT DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2018

| Statement of activities are different because:  Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense (\$160,585) and loss on disposal (\$1,811) exceeded capital outlays (\$138,259).  | 1              |   | (24,137)   |
| The issuance of long term debt (e.g. bonds) provides current financial resources to governmental funds, while the repayment of the principal of long term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance cost, premiums, discounts, and similar items when debt is first issued, whereas the amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long term debt and related items. | :<br>•<br>•    |   |            |

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Northern Kentucky Area Development District (NKADD) is a non-profit public agency, functioning as an instrumentality of a political subdivision of the Commonwealth of Kentucky. NKADD operates under legislative authority which has as its primary purpose the promotion of economic development and the establishment of a framework for joint federal, state and local efforts directed toward providing basic services and facilities essential to the social, economic and physical development of the eight county area in Northern Kentucky. The accounting policies of NKADD conform to generally accepted accounting principles.

The NKADD's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

For the year ended June 30, 2018, the NKADD implemented the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB Statement No. 75 establishes standards for measuring and recognizing deferred outflows of resources, deferred inflows of resources, and expenses/expenditures related to health care benefits provided through postemployment benefits plan.

The following is a summary of the more significant policies:

<u>A. Basic Financial Statements – Government-Wide Statements:</u> The NKADD's basic financial statements include both government-wide (reporting the NKADD as a whole) and fund financial statements (reporting the NKADD's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The NKADD currently has no funds that are classified as business-type activities.

In the government-wide Statement of Net Position, the governmental activities column is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The NKADD's net position are reported in three parts – invested in capital assets, net of related debt, unrestricted net position, and restricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the NKADD's functions. The functions are also supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants. Net costs, if any, (by function) are normally covered by general revenue.

This government-wide focus is more on the sustainability of the NKADD as an entity and the change in the NKADD's net position resulting from the current year's activities.

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**B.** Basic Financial Statements-Fund Financial Statements: The financial transactions of the NKADD are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of their assets, liabilities, reserves, fund equity, revenues and expenditures, as appropriate.

The following funds are used by NKADD:

### **Governmental Fund Types:**

**General Fund -** The general operating fund of the NKADD is used to account for all financial resources except those required to be accounted for in another fund.

**Special Revenue Fund -** The special revenue fund is used to account for the proceeds of specific revenue sources not considered part of the other funds, which includes the revolving loan fund and the KHC EDA loan fund.

### **Fund Balances:**

GASB Statement 54 provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the NKADD's fund balances more transparent. In the fund financial statements, governmental fund balances can be presented in five possible categories:

**Nonspendable** – resources which cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact.

**Restricted** – resources with constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, governmental laws regulations or imposed by law through constitutional provisions or enabling legislation.

**Committed** – resources which are subject to limitations the NKADD imposes on itself at its highest level of decision making and that remain binding unless removed in the same manner.

**Assigned** –resources neither restricted nor committed for which a government has a stated intended use as established by the governing body or by an official to which the governing body delegates authority.

**Unassigned** – amounts that are available for any purpose. The General Fund is the only fund that reports an unassigned fund balance amount.

<u>C. Basis of Accounting:</u> Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

### 1. Accrual

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2. Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

The accounting system of NKADD also provides for the following:

- (1) Revenues are applied to program elements on the basis of total expenses incurred on the projects during the period and on the sharing ratios specified in the grant agreements.
- (2) Equipment acquired with grant funds is expensed immediately rather than capitalized and depreciated.
- **<u>D. Shared Costs:</u>** Shared costs were distributed over the benefiting programs on the basis of direct salary and employee benefit charges. Shared costs are those (a) incurred for a common or joint purpose benefiting more than one program, and (b) not readily assignable to the programs specifically benefited without effort disproportionate to the results achieved.
- **E. Use of Estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.
- **<u>F. Cash and Cash Equivalents:</u>** For purposes of these financial statements, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with original maturities of three months or less. As of June 30, 2018 the NKADD held no cash equivalents.
- G. Accounts Receivable: Management considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations, as uncollectible governmental funds, when that determination is made.
  - **<u>H. Income Taxes:</u>** NKADD is exempt from income taxes.
- **I. Property and Equipment:** Equipment is generally acquired by NKADD in part with grant funds. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Capital assets purchased or acquired with an original cost of \$500 or more are reported at cost. Other costs incurred for repairs and maintenance are expensed as incurred. Property acquired by the NKADD is stated at cost, less accumulated depreciation computed by the straight line method over the following estimated useful lives:

| Building and improvements | 10 – 40 years |
|---------------------------|---------------|
| Furniture and fixtures    | 7 years       |
| Computer equipment        | 3 years       |
| Computer software         | 10 years      |

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Use of Restricted Resources: When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the NKADD's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the NKADD's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications—committed and then assigned fund balances before using unassigned fund balances.

**K.** Long Term Debt: In the government-wide financial statements, long term debt is reported as liabilities in the applicable governmental activities financial statements.

In the fund financial statements, governmental fund types recognize bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as other financing uses.

- **L. Revenues:** Substantially all governmental fund revenues are accrued.
- M. Expenditures: Expenditures are recognized when the related fund liability is incurred.
- N. Compensated Absences: Employees are granted vacation benefits in varying amounts to specified maximums depending on tenure with NKADD. Sick leave accrues to employees to specified maximums. Employees are entitled to limited accrued vacation leave upon termination. The estimated liability for vested vacation leave benefits is recorded as an expenditure and liability in the respective funds.
- O. Deferred Outflows of Resources: The NKADD reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its government-wide statement of net position. Deferred outflows of resources reported in this year's financial statements relate to the NKADD's pension plan and OPEB plan and include (1) contributions made to the NKADD's pension plan and OPEB plan between the measurement date of the net pension liability and the end of the NKADD's fiscal year; (2) differences between the expected and actual experience; (3) changes in assumptions; (4) changes in the proportionate share of the NKADD's contributions to the pension fund and OPEB plan; and (5) difference between projected and actual earnings on plan investments. The deferred amount related to the differences between expected and actual experience, changes of assumptions in the pension fund and OPEB fund, and changes in the proportionate share of the NKADD's contributions to the pension fund and OPEB fund will be recognized over a closed period equal to the average of the expected remaining service lives of all employees participating in the plan. The deferred amount related to the difference between projected and actual earnings on plan investments will be recognized over a closed five-year period beginning in the current reporting period. Deferred outflows for pension and OPEB contributions will be recognized in the subsequent fiscal year. No deferred outflows of resources affect the governmental funds financial statements in the current year.
- **P.** <u>Deferred Inflows of Resources:</u> The NKADD's statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period(s). Deferred inflows of resources are reported in the NKADD's statement of net position for changes in proportionate share of contributions. The other deferred inflow of resources is attributed to the premium that was paid on the loan with the City of Florence for refinancing the building, improvements and real estate.
- Q. Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System (CERS) and additions to/deductions from CERS's fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

R. Other Postemployment Benefits (OPEB): For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County Employees Retirement System (CERS) and additions to/deductions from CERS's fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### **NOTE 2 – CASH AND INVESTMENTS**

At June 30, 2018, the carrying amount of the NKADD's deposits (cash and cash equivalents) was \$803,149 and the bank balances totaled \$1,293,108. The building construction account balance was \$33,335, which consists of a money market government fund, and is uninsured. Of the remaining cash, \$250,000 is covered by the Federal Depository Insurance (FDIC) with the balance secured by pledged securities held by the pledging financial institution's agent as collateral for the bank balances in excess of the FDIC insured amount.

Kentucky Revised Statutes authorize districts to invest in obligations of the United States and its agencies, obligations of the Commonwealth of Kentucky and its agencies, shares in savings and loan associations insured by federal agencies and deposits in national or state chartered banks insured by federal agencies, repurchase agreements, and larger amounts in such institutions providing such banks pledge as security, obligations of the United States government or its agencies.

### **NOTE 3 - LEASES**

NKADD leases warehouse space under an operating lease. The current year lease costs approximate \$36,000. There were no minimum future rental payments under this cancelable lease having remaining terms in excess of one year as of June 30, 2018.

The NKADD leases office space for the One Stop and Kentucky Works programs under five year rental agreements. The current year gross lease expense was \$201,559. The current year gross sublease income was \$66,651. The approximate future minimum lease payments relative to these leases as of June 30, 2018 are summarized as follows:

| Fiscal Year Ending June 30 |                   |
|----------------------------|-------------------|
| 2019                       | \$ 203,678        |

| 2021                       | 199,580           |
| 2022                       | 16,632            |

|                            | <u>\$ 619,470</u> |

Total minimum lease payments have not been reduced by \$263,459 to be received in the future under non-cancelable subleases.

### **NOTE 4 – EMPLOYEE'S PENSION PLANS**

### General Information about the Pension Plan

Plan description. Employees of the NKADD are provided with pensions through the County Employees Retirement System (CERS)—a cost-sharing multiple-employer defined benefit pension plan. Per Kentucky Revised Statute Section 61.645, the Board of Trustees (the Board) of Kentucky Retirement Systems (KRS) administers the CERS. KRS issues a publicly available financial report that can be obtained at https://kyret.ky.gov.

Benefits provided. CERS provides retirement, disability, and death benefits. Retirement benefits are calculated based on a formula (final compensation times a benefit factor times years of service) and may be extended to beneficiaries of plan members under certain circumstances. Disability benefits are determined in a similar manner as retirement benefits, but vary based upon hire date, age and years of service. Death benefits vary based upon whether the employee was retired or working at the date of death and whether or not it was a duty-related death.

For retirement purposes, non-hazardous duty employees are grouped into three tiers, based on their hire date:

| Tier 1 | Participation date Unreduced Retirement Reduced Retirement | Before September 1, 2008<br>27 years of service or 65 years old<br>At least 5 years of service or 55 years old, or<br>At lease 25 years of service and any age |

Employees are vested in the plan after five years of service. Costs of living adjustments (COLA) are provided at the discretion of the Kentucky General Assembly. No COLA has been granted since July 1, 2011.

Contributions. Kentucky Revised Statute Section 78.545(33) grants the authority to establish and amend the benefit terms to the Board of KRS. Tier 1 employees are required to contribute 5% of their annual creditable compensation. Tier 2 and 3 employees are required to contribute 5% of their annual creditable contribution plus an additional 1% of creditable compensation to the Insurance Fund. Employers contribute at the rate determined by the Board. The actuarially determined rates set by the Board for the year ended June 30, 2018 was 19.18%, of which 14.48% was for the pension fund and 4.70% was for the insurance fund. Contributions to the pension plan from the NKADD were \$600,492 for the year ended June 30, 2018, of which \$453,343 was for the pension fund and \$147,149 was for the insurance fund.

### NOTE 4 – EMPLOYEE'S PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the NKADD reported a liability of \$7,428,842 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The NKADD's proportion of the net pension liability was based on a projection of the NKADD's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the NKADD's proportion was 0.126917%, which was a decrease of 0.005990% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the NKADD recognized pension expense of \$1,148,598. At June 30, 2018, the NKADD reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  |    | Deferred Outflows<br>of Resources |    | rred Inflows Resources |
|--|----|-----------------------------------|----|------------------------|

The \$453,343 reported as deferred outflows of resources related to pensions resulting from NKADD contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

### NOTE 4 – EMPLOYEE'S PENSION PLANS (CONTINUED)

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2017 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.30%

Salary increases 3.05%, average, including inflation

Investment rate of return 6.25%, net of pension plan investment

expense, including inflation

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in the mortality rates and that margin will be reviewed again when the next experience investigation is conducted.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2008–June 30, 2013.

Changes of assumptions. Since the prior measurement date, the economic assumptions that affect the measurement of the total pension liability have been updated as follows:

- The assumed investment rate of return was decreased from 7.50% to 6.25%.
- The assumed rate of inflation was reduced from 3.25% to 2.30%.
- The assumed payroll growth was reduced from 4.00% to 2.00%.
- The assumed salary increase was reduced from 4.00% to 3.05%.

Discount rate. The discount rate used to measure the total pension liability was 6.25%. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26 year amortization period of the unfunded actuarial accrued liability. The actuarial determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period.

The long-term expected rate of return on plan assets is reviewed as part of the regular experience studies prepared every five years for KRS. The most recent analysis, performed for the period covering fiscal years 2008 through 2013, is outlined in a report dated December 3, 2015. Several factors are considered in evaluating the long-term rate of return assumption including long term historical data estimates inherent in current market data, and a log-normal distribution analysis in which the best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

### NOTE 4 – EMPLOYEE'S PENSION PLAN (CONTINUED)

The target allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the following table:

### Payables to the pension plan

The NKADD makes legally required contributions to the pension plan on a monthly basis. The monthly payment is due by the 10<sup>th</sup> of the following month. As of June 30, 2018, \$101,590 was payable to the pension plan, of which \$76,696 was for the pension fund and \$24,894 was for the insurance fund.

### **NOTE 5 – POSTEMPLOYMENT BENEFITS**

### General Information about Other Postemployment Benefits Plan (OPEB)

Plan description. Employees of the NKADD are provided with health care benefits through the Kentucky Retirement System Insurance Fund (Insurance Fund)— a cost-sharing multiple-employer health insurance plan. The Insurance Fund is part of CERS. Per Kentucky Revised Statue Section 61.645, the Board of Trustees (the Board) of Kentucky Retirement Systems (KRS) administers the health insurance benefit. KRS issues a publicly available financial report that can be obtained at http://kyret.ky.gov.

Benefits provided. The Insurance Fund provides hospital and medical insurance for eligible members receiving benefits from CERS. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. The eligible Medicare retirees receive benefits through a Medicare Advantage Plan. The amount of contributions paid by the Insurance Fund is based on years of service and participation date. For members participating prior to July 1, 2003, members completing 20 or more years of service received 100% contribution. Members completing 15-19 years, 10-14 years, and 4-9 years received 75%, 50%, and 25% respectively. Members completing less than 4 years of service receive no insurance benefit. As a result of House Bill 290, medical insurance benefits are calculated differently for members who began participating on, or after, July 1, 2003. Once members reach a minimum vesting period of 10 years, non-hazardous employees whose participation began on, or after, July 1, 2003, earn \$10 per month for insurance benefits at retirement for every year of earned service without regards to a maximum dollar amount. This dollar amount is subject to adjustment annually, which is currently 1.5%, based upon Kentucky Revised Statues. The monthly dollar contribution for 2017 is \$13.18 for CERS Non-hazardous employees. The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgement, the welfare of the Commonwealth of Kentucky so demands.

Contributions. Kentucky Revised Statute Section 78.545(33) grants the authority to establish and amend the benefit terms to the Board of KRS. Tier 1 employees are not required to contribute to the insurance fund. Tier 2 and 3 employees are required to contribute 1% of their creditable contribution to the insurance fund. Employers contribute at the rate determined by the Board. As stated in Note 4 Employee's Pension Plan, the actuarially determined rates set by the Board for the year ended June 30, 2018 was 19.18%, of which 14.48% was for the pension fund and 4.70% was for the insurance fund. See Note 4 for contributions to the plan from the NKADD during the current fiscal year.

### OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the NKADD reported a liability of \$2,551,466 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The NKADD's proportion of the net OPEB liability was based on a projection of the NKADD's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the NKADD's proportion was 0.126917%.

For the year ended June 30, 2018, the NKADD recognized OPEB expense of \$260,182. At June 30, 2018, the NKADD reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

The \$178,332 reported as deferred outflows of resources related to OPEB resulting from NKADD contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in pension expense as follows:

### NOTE 5 – POSTEMPLOYMENT BENEFITS (CONTINUED)

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2008–June 30, 2013.

Discount rate. The discount rate used to measure the total OPEB liability was 5.84%. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26 year amortization period of the unfunded actuarial accrued liability. The discount rate determination used an expected rate of return of 6.25% and a municipal bond rate of 3.56%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2017. However, the cost associated with the implicit employer subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trust. Therefore, the municipal bond rate was applied to the future expected benefits payments associated with the implicit subsidy.

The long-term expected rate of return on plan assets is the same as disclosed in Note 4 Employee's Pension Plan.

The target allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the following table:

### **NOTE 9 – CONTINGENCIES**

NKADD participates in numerous state and federal grant programs which are governed by various rules and regulations of the funding agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the funding agencies. Therefore, to the extent that NKADD has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related revenues earned in excess of funds received at June 30, 2018 may be impaired. Based on prior experience, management believes that NKADD will not incur significant losses from possible grant disallowances. Amounts that management anticipates will be refunded are included in funds received in excess of revenues earned.

NKADD passes a significant portion of the local, state and federal grant funds it receives through to subgrantees. NKADD monitors the activities of the sub-grantees and requires that applicable sub-grantees have financial and compliance audits performed. To the extent that audits of sub-grantees indicate failures to comply with applicable grant requirements, NKADD assesses the likelihood of grant refunds payable as a result of such noncompliance, and records a liability for amounts management deems to be in excess of amounts recoverable from the sub-grantee. Management also assesses the likelihood of noncompliance by sub-grantees that have not yet submitted audited results. NKADD has not received nor reviewed many of the FY '18 audits of its sub-grantees. It is possible that audits of these funds could disclose questionable costs and/or non-compliance with laws, regulations and grant conditions that would have an adverse effect upon the financial statements and reports.

### NOTE 10 - RESTRICTED NET POSITION

Net position restricted for loan programs include the excess of assets over liabilities restricted for the revolving loan fund and the Kentucky Housing Corporation Economic Development Administration loan fund. The government-wide statements include restricted net position of \$299,439 for small business loans reported as funds to reflect purpose restrictions imposed by the grantors. Net position restricted for building construction includes the cash restricted by the lease/financing agreement to be used in the construction of the building addition. These restrictions are functionally classified in the statement of net position.

### NOTE 11 - CHANGE IN ACCOUNTING PRINCIPLE

Effective July 1, 2017, the District was required to adopt Governmental Accounting Standards Board (GASB) Statement no. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions", as they relate to governments that provide postemployment benefits through health insurance plans administered as trust or similar arrangements that meet certain criteria. GASB 75 requires governments providing defined benefit postemployment benefits to recognize their long-term obligation for benefits. Cost-sharing governmental employers, such as the District, are required to report a net OPEB liability, OPEB expense and OPEB-related assets and liabilities based on their proportionate share of the collective amounts for all governments in the plan.

GASB 75 required retrospective application. Since the District only presents one year of financial information, the beginning net position was adjusted to reflect the retrospective application. The adjustment resulted in a \$1,838,504 reduction in beginning net position on the Statement of Activities.

### NORTHERN KENTUCKY AREA DEVELOPMENT DISTRICT NOTES TO BUDGETARY COMPARISON SCHEDULE JUNE 30, 2018

### **NOTE 1 - BUDGETING POLICIES**

The executive director submits an annual budget to the Board of Directors in accordance with NKADD procedures. Once approved, the Board of Directors may amend the adopted budget when unexpected modifications are required in estimated revenues and expenditures. Each funds' budget is prepared on a detailed work element/line item basis. Revenues are budgeted by source. Expenditures are budgeted by department, work element and line item. Revisions to the budget were made throughout the year. Because the NKADD did not have sufficient information to accurately prepare certain forecasts, some work elements do not have budgets.

The budgets are prepared on the basis of accounting used by the appropriate fund. The actual and budget amounts for the Revolving Loan Fund and the Non-cash Federal Commodities are not included in the General Fund budgetary comparison schedule.

### NOTES TO REQUIRED PENSION SUPPLEMENTARY INFORMATION

### June 30, 2018

*Changes of benefit terms*: The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

2009: A new benefit tier for members who first participate on or after September 1, 2008 was introduced which included the following changes:

- 1. Tiered structure for benefit accrual rates
- 2. New retirement eligibility requirements
- 3. Difference rules for the computation of final average compensation

2014: A cash balance plan was introduced for members whose participation date is on or after January 1, 2014.

*Changes of assumptions.* The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

### 2015

- The assumed investment rate of return was decreased from 7.75% to 7.50%.
- The assumed rate of inflation was reduced from 3.50% to 3.25%.
- The assumed rate of wage inflation was reduced from 1.00% to 0.75%.
- Payroll growth assumption was reduced from 4.50% to 4.00%.
- The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).
- For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.
- The assumed rates of retirement, withdrawal and disability were updated to more accurately reflect experience.

### 2017

- The assumed investment rate of return was decreased from 7.50% to 6.25%.
- The assumed rate of inflation was reduced from 3.25% to 2.30%.
- The assumed payroll growth was reduced from 4.00% to 2.00%.
- The assumed salary increase was reduced from 4.00% to 3.05%

Method and assumptions used in calculations of actuarially determined contributions. The actuarially determined contribution rates are determined on a biennial basis beginning with the fiscal year ended 2018, determined as of June 30, 2017. The amortization period of the unfunded liability has been reset as of July 1, 2013 to a closed 30-year period. The following actuarial methods and assumptions were used to determine contribution rates reported in that schedule:

Actuarial cost method Entry age

Amortization method Level percentage of payroll, closed

Remaining amortization period 26 years

Asset valuation method 5-year smoothed market

Inflation 2.30%

Salary increase 3.05%, average, including inflation Investment rate of return 6.25%, net of pension plan investment

expense, including inflation

### NORTHERN KENTUCKY AREA DEVELOPMENT DISTRICT NOTES TO SUPPLEMENTARY INFORMATION JUNE 30, 2018

### **NOTE 1 – BASIS OF ACCOUNTING**

The supplementary information has been prepared in accordance with the reporting requirements of the various funding authorities. These requirements include the accrual basis of accounting and the inclusion of all reported fund sources and expenditures related to the contracts. Accordingly, the supplementary information includes the sub-grantees' reported program income, cash match and in-kind match. The supplementary information does not include statements of assets and liabilities of the programs. As such, these requirements differ from accounting principles generally accepted in the United States of America.

### NOTE 2 – SUB-GRANTEE MATCH INFORMATION

As stated in Note 1 above, the supplementary information includes the reported program income and match information of the sub-grantees. With the exception of RC Durr YMCA of Greater Cincinnati, Owenton Manor, The Visiting Nurses Association of Greater Cincinnati, Community Services of NKY, Carroll County Fiscal Court, Gallatin County Fiscal Court, Pendleton County Fiscal Court, Owen County Fiscal Court, and Help at Home, the sub-grantees providing match information are to be audited by independent certified public accountants in accordance with criteria established by terms of their agreements. Their audit reports will be furnished to the Northern Kentucky Area Development District and will be available for review by the appropriate state agencies. The sub-grantees providing match under each contract are as follows:

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Northern Kentucky Area Development District Florence, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Northern Kentucky Area Development District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Northern Kentucky Area Development District's basic financial statements, and have issued our report thereon dated February 14, 2019

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Northern Kentucky Area Development District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Northern Kentucky Area Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Northern Kentucky Area Development District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Northern Kentucky Area Development District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **BARNES DENNIG**

### Independent Auditors' Report (Continued)

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Board of Directors Northern Kentucky Area Development District Florence, Kentucky

### Report on Compliance for Each Major Federal Program

We have audited Northern Kentucky Area Development District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Northern Kentucky Area Development District's major federal programs for the year ended June 30, 2018. Northern Kentucky Area Development District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Northern Kentucky Area Development District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Northern Kentucky Area Development District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Northern Kentucky Area Development District's compliance.

### Opinion on Each Major Federal Program

In our opinion, Northern Kentucky Area Development District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

### **BARNES DENNIG**

### Independent Auditors' Report (Continued)

### Report on Internal Control over Compliance

Management of Northern Kentucky Area Development District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Northern Kentucky Area Development District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Northern Kentucky Area Development District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### NORTHERN KENTUCKY AREA DEVELOPMENT DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2018

### **Note 1 - Basis of Presentation**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Northern Kentucky Area Development District. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of NKADD, it is not intended to and does not present the financial position, changes in net position or cash flows of the NKADD. Although many of these programs are jointly funded by Federal, Kentucky and local sources, only Federal expenditures are reported on this schedule. The amounts shown are based on the Federal share of the combined allocations.

### Note 2 – Summary of Significant Accounting

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available. The NKADD has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.
